Laminated Cover

An essential element in Research

We are suppliers of quality hard covered, case bound Custom Laboratory Notebooks, and have supplied the John Innes Centre, the Institute of Food Research, The Rowett Institute, and the Aberdeen University,

Laboratory Notebooks are essential for research, enabling records to be kept that are permanent, complete and continuous.

All the materials used in the production of our books are specially selected and are of the highest quality.

Our books are fully customised with the cover printed in the corporate style of your organisation. They are numbered individually, then either gloss or matt laminated. The text too is to your specification with bespoke guidelines and signature pages. The artwork can either be supplied or can be produced in our graphics studio.

For a free competitive quotation or sample book call and ask for Martin Bullard or Mike Holmes
